“This summer vacation was the most unforgettable experience in my life. As I stepped on the land of Oxford, I knew that I would love this place. CBL International welcomed us with their sincere speech from the organizers and had a wonderful cocktail party which provided us with great opportunities to get acquainted with other exchange students. After that, I found the program extremely enriching with both lectures which provided us a broad overview of basic concepts about economic management and a great communication environment of knowledgeable professors and also activities which broadened our horizon and helped us in understanding more of the British culture. For example, we punted at Oxford River and took a trip to Cambridge, Bath, London, etc. In addition, I also want to mention that the accommodation service was perfect! During the stay, something went wrong with my water faucet in my bathroom, so I reported it to the porter and soon after that, a very nice plumber was sent here to fix it. I was really impressed by the high working efficiency and personalized service of CBL International as well as Oriel College.

All in all, thanks to CBL International and Oriel College!!”

“Before joining the Oxford University summer camp, we were unable to understand how the great scientist Stephen Hawking became "the greatest living scientist" even with a disabled body. Also, before joining in the Oxford University summer camp, we were unable to understand how the famous poet Shelley created a lot of classic work that were handed down from generation after generation. And before joining in the Oxford University summer camp, we were unable to understand how the outstanding writer Qian Zhongshu grew to one of the most predominant writers in Chinese.

All of these can not be understood until be comprehended by oneself in the historical university. Oxford University and Nankai University built a platform for us, so that we could get the opportunity to explore and comprehend Oxford University, which brought our spirit and soul inspired.”

“The program was simply amazing as the small-class teaching style provided us with a great communication environment with our professors. It incorporated lectures on legal theory, IP law, European law, international trade law, as well as many others. In addition to the knowledgeable professors providing an overview of the common law system, CBL International comprehensively fulfilled the program with a visit to the Royal Courts of Justice in London. We had the experience of a lifetime by attending a trial as the audience in the Oxford Local Court.

It wasn't just all about studying and learning though as the Oxford Summer Program also integrated a tour to Cambridge, which was absolutely great fun! I was very proud of myself for getting second prize at a football competition with my friend.

Thank you so much for the great experience CBL International and Oriel College!”

Participant CBL International Oxford Summer Institute at Oriel College 2011

"I liked the courses arranged by CBL International. Through communicating with other participants, I found that most were aiming at engaging themselves in business circles. Therefore, courses such as business law, WTO legal system, competition law and the like are very useful. These courses opened a new window to know the foreign legal system from a different viewpoint.

The CBL International team arranged professors from different fields and different places including prestigious professors from Oxford and Cambridge, elite lawyers, and also EU judges and arbitrators. While each professor had their own style of teaching, the lectures truly broadened my horizons. These were the nicest, most easy-going professors that were very patient to give me satisfying answers to questions I had after each course. Their spirit of humility is worth learning, especially for us young people.

I have acquired knowledge and skill sets through the program which has broadened my horizons greatly. I will never forget this experience."

CBL International Oxford Summer Institute at Oriel College 2012

"The summer course held by Oriel College and CBL International was very well done. The students could choose 4 courses from total 28 courses in four different fields including Law, Economics, International Relations and legal & business English. The students enjoyed the courses which are all given by professors who are related with Oxford University. This ensured the quality of the courses. The students studied and lived for 4 weeks at Oriel College, just like a real Oxford student!

They experienced the way of how Oxford professors teach and how to learn in a Western background. They communicate with their teachers and classmates from all over the world. After a whole month of study, they said, everything is like Harry Potter except that we did not learn any magic! The summer course may change their life direction in the future and have definitely changed their mind in a good way."

“My students have different majors and most of them went abroad for the first time. Before our departure, they were all excited and curious about foreign culture and exotic customs. After one-month study, all my students successfully obtained graduation certificates and are satisfied with this experience.

I was deeply impressed by the vigorous and interactive class atmosphere. Students were encouraged to express their thoughts and opinions, and some brilliant ideas could often be sparked during the process.

At weekends, CBL International organised trips to Bath, Cambridge and London and other activities, which were very interesting and educative, and closely linked to the law and economy study.

I think CBL International summer session programme is a wise choice for both Chinese university students and teachers to open academic visions and experience foreign culture. ”

CBL International Oxford Summer Institute at Oriel College 2011

“In August 2011, participants from School of Economics and Management, Tongji University attended Oxford Summer Institute, organized by CBL International and Oriel College. The program was a very well-organized workshop, focusing on international economics and management. It lasted 4 weeks, combined with several lectures delivered by Oxford professors and visits to Cambridge and London. The lectures have been a great experience in terms of having the opportunity to learn about UK business culture and society.

Oxford University is the oldest university in the English-speaking world. It is also regarded as one of the world’s leading academic institutions. It was great experience for us to live, study and have meals at Oriel College of Oxford. We can trace the university’s roots back to the end of the 12th century from its lordly architecture. The facility in dormitory, lecture venues and dinner room was excellent. Our hosts at Oriel and CBL International team have been fantastic, and have really helped to make the visit enjoyable and interesting.

We will encourage more SEM-Tongji students to join the programme next year. With its international flair, excellent lectures and fantastic academic atmosphere, there is no better place for learning than Oxford!”
